technoedge
LEARNING

TechnoEdge creates a world where leveling up skills is attainable in an affordable and short period of time, making it the ideal space for both individuals and companies to continue to reach towards the future without interrupting progress.

WHY IT AND WHY IT SECURITY?

Be prepared to deal with increased cyberattacks which continue to increase and threaten businesses of all sizes.

Increase your company's ability to pivot by investing in working potential, establishing a greater ability for your business to thrive.

Be at the forefront of your industry by learning next generation technologies. Technologies such as blockchain, AI and machine learning are the way of the future.

Protect your company: the average cost of a data breach in Canada is estimated at USD 4.4 million.

WE MAKE TRAINING YOUR STAFF EASY.

ORGANIZING STAFF TRAINING CAN BE TEDIOUS AND TAKE UP VALUABLE TIME, BUT IT IS ALSO VERY IMPORTANT. TECHNOEDGE TAKES THE PLANNING OUT OF YOUR HANDS AND STREAMLINES THE PROCESS OF SETTING UP TRAINING, DELIVERING TRAINING AND FACILITATING THE EXAMINATION PROCESS.
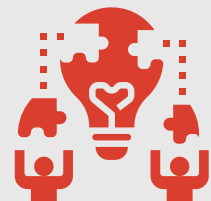

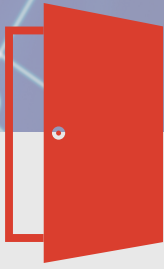

WHY TECHNOEDGE LEARNING?

All our self-paced courses are delivered by experienced certified instructors.

Our acessible learning methods minimize business disruption while allowing progress and growth.

You can expect varied learning experiences, practical training and maximum engagement.

40% OF EMPLOYEES with poor training will leave the company within the first year.

24% HIGHER PROFIT MARGINS can be the result of companies who invest in training.

WHY INVEST IN TRAINING STAFF?

Lift untapped talent by retaining and retraining loyal staff whose reskilling can contribute to your organization.

85% MORE CONFIDENCE
Certifications create trust and a can-do attitude.

94% RETENTION of current skilled staff.
Employees said they would stay at a company longer if it invested in their learning and development.

MEET OUR PARTNERS

TechnoEdge Learning partners with some of the most reputable and internationally recognized IT curriculum authors and tech associations to ensure your team is provided with the highest standards of materials, instructors and certifications.

Our partner courses include vendor neutral training, providing your team with learning that can be applied to whichever vendor you are working with. Vendor neutrality is important to you and your team as IT is rapidly changing and businesses need to have adaptable employees who can work on multi-vendor platforms to ensure they are able to choose the platforms that work best for their business at any given time.

IT Security and Cybersecurity Courses that are reputable and internationally recognized.
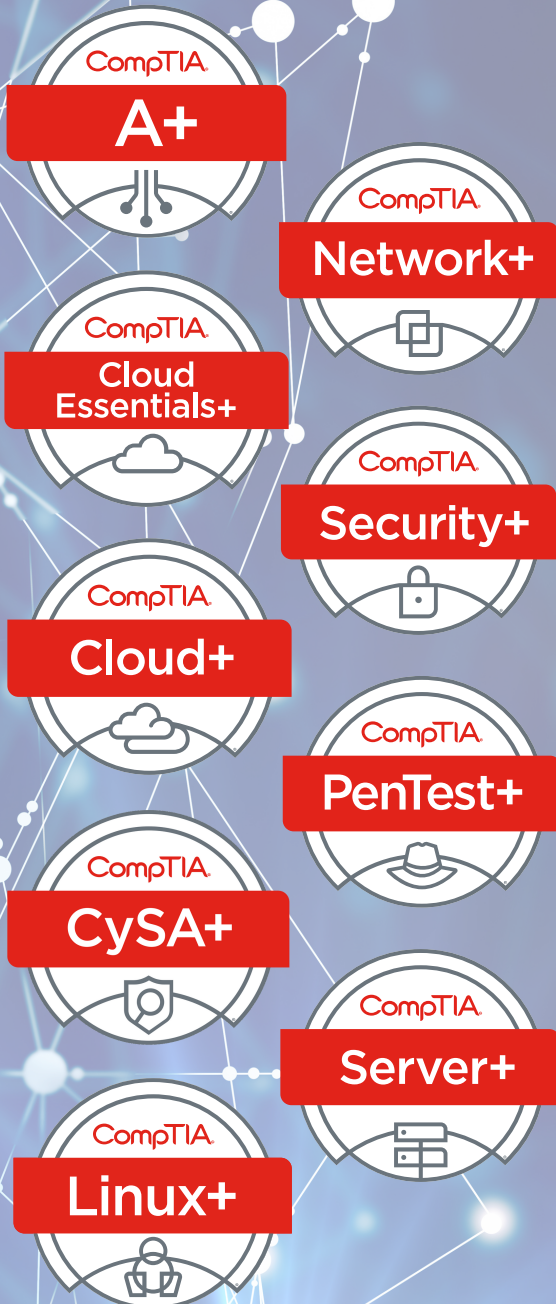

CompTIA. Authorized Partner | DELIVERY PARTNER

PECB AUTHORIZED PARTNER

Arcitura® the IT education company

CompTIA COURSE OFFERINGS

CompTIA A+

CompTIA Cloud Essentials+

CompTIA Cloud+

CompTIA CySA+

CompTIA Linux+

CompTIA Network+

CompTIA Security+

CompTIA PenTest+

CompTIA Server+

After completing their training, your employees will have the opportunity to write a CompTIA certification exam, further consolidating their learning and verifying their knowledge.

CompTIA certifications are based on the concept of vendor neutrality, which means that you are training your staff with skills that will provide them learning agility in various job roles, rather than vendor-specific technology.

PECB COURSE OFFERINGS

PECB Lead Network Security Manager

TechnoEdge Learning is an Authorized Delivery Partner of PECB, a global provider for ISO training. Courses include 4 levels of study: Introduction, Foundation, Lead Implementer and Lead Auditor.

Regardless of your IT training needs, the PECB training courses reflect the latest standards, technologies, and most innovative methods, while providing practical examples.

After completing the course, learners will be able to write the PECB examination for the training course that they completed. The value of PECB certifications is validated by the accreditation from the International Accreditation Service (IAS) and the United Kingdom Accreditation Service (UKAS) under ISO/IEC 17024.

Arcitura Course Offerings

Providing IT training courses that allow IT professionals to keep up with ever changing technologies. Courses offered focus on the areas of Digital Transformation, cloud and next generation technologies such as blockchain.

Once courses are completed, learners can take an online certification exam via Pearson Vue. Obtaining an Arcitura certification will provide employers the confidence that employees have the knowledge of the most to date technologies to support, protect and grow the business.

ABOUT TECHNOEDGE LEARNING

TechnoEdge Learning delivers online, industry-recognized education to ensure IT experts have the skills they need to pass certification exams and progress further in their careers. Our training programs are delivered by the best instructors in the cybersecurity field.
